Quantity: 1 | Units: mm | Existing STL geometry; dimensions nominal

STL SHA-256: 51fe0f665844da4eeb8b0f335081a10ce126a13ba7906e967241c3d2daf68e24

PART SPECIFICATION

Dimension	Nominal
Overall X	22.77
Overall Y	31.30
Overall Z	5.90
Quantity	1
Installed inserts	None

FUNCTIONAL FEATURES

- Three keys: DIA 4.40 at 6.00 pitch. Three actuator stems: DIA 1.80. Flexible arms: 2.00 wide x 0.80 thick.
- Solid mounting bar and integrated power-slider retaining shelf. No screw holes or inserts.
- Return arms must flex and recover repeatedly. Confirm selected resin suitability for this function.
- Preserve moving surfaces and small clearances after finishing. Retained by the separate keeper; do not bond moving keys or the slider.
